Make HD Photo Slide Show MP4 Movie for TouchPad

The HP TouchPad runs webOS 3.0 and is powered by a 1.2GHz dual-core Snapdragon processor. The 9.7-inch (25 cm) screen and 1024x768 resolution display makes TouchPad perfect for watch movies on the go!

It sounds a great idea to make a slideshow of your favorite photos and share it with your family and friends on your TouchPad. Photo DVD Burner Professional makes it easy to create an HD photo slide show movie for viewing on HP TouchPad. Let's take a look at how it performs:

1.Organize Photos

Click the *Organize Photos* tab in Photo DVD Burner to create one or more albums, select photos from a folder in your computer hard drive and add them to the album.

In the sub-tab of *Album Photo*, you can add or remove photos, rotate photos, set album thumbnail, arrange the order of the photos, etc. **Note:** Double-click one single photo in the album and you will be able to personalize the photos (transition, Pan & Zoom, Text, ArtClips, Subtitle, Brightness / Contrast, etc) one by one in the Photo Configuration window.

Switch to the *Transition & Music* tab, and you can add background music, apply transition effects, specify transition duration, photo duration, randomize photo transitions, etc.
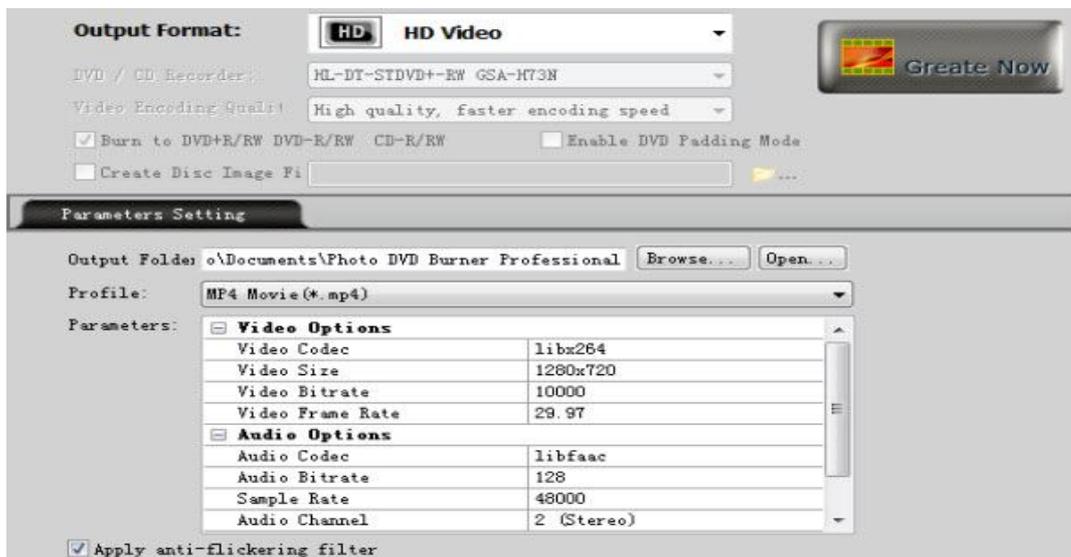

In the *Album Theme* tab, there are lots of album themes available for you to choose from. You may also add separate photos to the beginning and end of the album, and edit album beginning title and ending title, such as text, effect, duration, background color, etc.

Also you are allowed to preview the whole album before the conversion by clicking the *Album Preview* button.

2.Choose Output Format

Click the *Burn Disc* tab at the top menu to go to the conversion window. Then click the Output Format drop-down menu to choose output format for the slideshow movie. Since HP TouchPad supports MPEG-4, H.263 and H.264 video formats, you can choose "HD Video" from the format list and choose "MP4 Video" as the profile. You can also specify output directory and video/audio parameters such as video bitrate, size, codec, frame rate and audio codec, bitrate, sample rate, channel.

3.Create HD Slide Show Movie for TouchPad

After you set the above parameters, click the *Create Now!* button and start creating HD photo slide show movie for viewing on HP TouchPad.
